

4-3  
The Library is recently fully automated using self made customized web based software with mysql database and ASP . Net technology .

ALMS (**Advanced Library Management Software**) is an advanced integrated automated software, versatile and user friendly, multimedia interface and multiuser web enabled for intranet and internet environments. Sorting and printing large number of reports, statistics and printing of records.

It has interface to bar code scanners, printers.

1. **Data base management**- cataloguing books, thesis, conference proceedings, reports journals, articles, bound volumes, non book materials, CD, videos, audios. Newspaper clippings, courses, e-books, list of authors. Publishers, suppliers, key words.
2. **Search** – designed to search the above databases using important fields and print the results in any designed format.
3. **Simple search**
4. **Advanced query builder**
5. **Restricted search**

#### **Future ILMS Library Services:**

ILMS will provide services in support of academic and research work.

1. Book Records- complete database for each and every book right from purchase.
  2. Every book can be searched by unique QR Code.
  3. Member Register- details of every members can be recorded with classified categories
  4. Every book may be allotted a unique ID and category.
  5. Issue, return, surcharge, missing book can be recorded.
  6. Question Bank facility
  7. Every user may be allotted a unique user ID and Password to enable them to log on to this software and use.
  8. Admin can allot to role of any user
  9. It can be used in web with PC and mobile.
- Year of automation: JULY 2021

The main goal of the library is to serve the academic community. And in order to do so the primary focus of CDCRI is to keep the library up to date and user friendly for all the staff and students alike. Our library is located in the administrative block and houses books, journals and other study materials for all departments, specific to their field of specialisation. There is always a wide range of selections to choose from as per requirements.

The library as the learning resource centre has a total number of 4291 text books, reference books 891, titles 871, total number of journals 87 volumes. we are having a special collection of textbooks like PG entrance books, dictionaries.

Pt. Deendayal Upadhyay Memorial Health Sciences and Ayush university of Chhattisgarh has provided digital library and K-Hub which can be accessed through university website homepage menu bar, which has lots of books, research journals, database, videos, thesis and dissertation, institutional repository and lots of news papers etc. Hence we are eligible to access and also download the databases from the web portal of the university, the largest volume of information.

CD/ DVD storages 371 List of CD's are available, which gives list of live surgical demonstrations done in college programmes.

Back volumes of the journals: Back dated journals of almost 12 Years old journals are stored for the benefit of all.

Journals are issued for a day while reference materials can be issued for a week. All journals and books can also be reissued as per need. Journals beside being in paperback form is also available online and also different journals can be accessed through online portal. Library timings are also in compliance with student accessibility. Our student can have access to the library from 9:00 a.m to 9:00 p.m
